PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience building and deploying MERN stack applications with real-time features using WebSockets. Proficient in JWT/OAuth authentication, REST APIs, and VPS deployment. Experienced in Agile teams, third-party integrations including Razorpay and Firebase, and open to remote or hybrid roles.

SKILLS

Frontend — React.js, Next.js, JavaScript (ES6+), TypeScript, Tailwind CSS, Vite, Socket.io

Backend — Node.js, Express.js, REST APIs, JWT, OAuth, MongoDB, MySQL, Mongoose, Redis

DevOps & Tools — VPS Deployment, CI/CD, GitHub Actions, Git, Jira, Postman, Linux, Nginx

PROFESSIONAL EXPERIENCE

Full Stack Developer, Cyberbells / Mar 2025 – Present

- Developed three production-grade MERN stack applications deployed live on VPS, serving 500+ real users across universities and organizations.
- Built JWT and OAuth authentication with role-based access control (Admin, Super Admin, User) across multiple applications ensuring secure data isolation.
- Contributed to Agile sprint planning in a 10+ member team, implemented Redis caching, integrated Firebase push notifications, and conducted code reviews for 3+ interns.

MERN Stack Developer, Ocena Smart Solution / Apr 2024 – Feb 2025

- Built and deployed a full-featured e-commerce platform with product listings, cart management, and order tracking — serving 100+ customers live on VPS.
- Integrated Razorpay payment gateway supporting complete payment lifecycle from checkout to order confirmation.

PROJECTS

UGive, React.js, Next.js, Node.js, MongoDB, JWT

- Built a multi-university social platform serving 200+ students across 3–4 universities with cross-institution connections and collaboration features.
- Implemented multi-role access control (Student, Admin, Super Admin) with isolated university-level data management using Mongoose and JWT authentication.

OneLinguo, React.js, Node.js, Express.js, MongoDB, Azure Speech Services

- Developed a real-time multilingual translation platform enabling organizations to broadcast live translated audio from Admin to multiple users simultaneously.
- Built secure Admin dashboard with role-based access to manage users, organizations, and active translation sessions.

CRM Employee Management System, React.js, Node.js, Express.js, MongoDB, Nodemailer

- Built full-featured CRM with attendance tracking, leave approvals, and event management with automated email notifications via Nodemailer.
- Implemented Admin and Super Admin dashboards for managing employees, roles, and organization-wide data.

EDUCATION

Master of Computer Application (MCA),

Himachal Pradesh Technical University — CGPA: 7.95 | 2022 – 2024

Bachelor of Computer Application (BCA),

Himachal Pradesh University — CGPA: 7.13 | 2018 – 2021

CERTIFICATIONS

MERN Stack Development — Excellence Technology | Sept 2024
